Quick Answer

Did QuickBooks Desktop Support End in June 2020?

No. QuickBooks Desktop support did not generally end for all versions in June 2020. However, older editions reached their scheduled end-of-service dates based on Intuit's support lifecycle.

Did QuickBooks Desktop Support End in June 2022?

Certain older QuickBooks Desktop versions reached end-of-service status around 2022, resulting in the loss of connected services and updates for affected editions.

Understanding QuickBooks Desktop End of Service

QuickBooks Desktop products typically follow a multi-year support lifecycle. Once a version reaches its end-of-service date, users may lose access to:

- Payroll updates
- Security updates
- Online banking features
- Payment processing integrations
- Technical support
- Connected online services

What Happens After Support Ends?

When a QuickBooks Desktop version reaches end-of-service status:

Security Risks Increase

Older software may no longer receive security patches.

Payroll Features Stop Updating

Tax tables and payroll calculations may become outdated.

Banking Connections May Fail

Bank feeds and online transaction downloads can stop working.

Compliance Challenges

Businesses may face difficulties staying current with tax regulations and reporting requirements.

Versions Commonly Affected

Depending on the year and release cycle, the following editions may eventually reach end-of-service:

- QuickBooks Pro
- QuickBooks Premier
- QuickBooks Enterprise
- QuickBooks Accountant

Trending QuickBooks Keywords in the USA

Many users search for:

- QuickBooks Desktop support
- QuickBooks Desktop discontinued
- QuickBooks Desktop end of life
- QuickBooks payroll support
- QuickBooks update errors
- QuickBooks migration services
- QuickBooks Enterprise support
- QuickBooks Online migration
- QuickBooks customer service
- QuickBooks installation help

Should You Upgrade?

Upgrading may provide:

- Better security
- Improved performance
- Ongoing updates
- Payroll compatibility
- Banking integrations
- Technical assistance

Common Questions

Can I Still Use QuickBooks Desktop After Support Ends?

Yes. Basic accounting functions may continue to work, but many connected services may stop functioning.

Is QuickBooks Desktop Being Discontinued?

QuickBooks Desktop continues to exist, but older versions periodically lose support.

What Is the Best Upgrade Option?

Many businesses choose:

- Newer QuickBooks Desktop editions
- QuickBooks Enterprise
- QuickBooks Online

Conclusion

QuickBooks Desktop support did not universally stop in June 2020 or June 2022. Instead, specific versions reached their scheduled end-of-service dates according to Intuit's lifecycle policy. Users should verify which version they are using and determine whether an upgrade is necessary to maintain security, compliance, payroll functionality, and online services.
